

WINTER WEATHER VEHICLE PREPAREDNESS INFORMATION

JANUARY 2022

FIVE EASY TIPS FOR PREPARING VEHICLES AND DRIVERS FOR WINTER WEATHER

1 DOWNLOAD MODOT MAP APP

If you have not yet, download the MODOT Weather and Road condition map to your work and personal cell for up to date road conditions and closure information. You can find these maps in the App Store on your mobile phone, or online at:

- Apple - apps.apple.com/us/app/modot-traveler-information/id568051012
- Android - play.google.com/store/apps/details?id=gov.mo.dot.timm

2 REPORT EMERGENCIES

In case of emergency on Missouri highways, please call the Missouri Highway Patrol at 1-(888)-ASK-MODOT (that's 1-800-275-6636).

3 LEAVE ROOM FOR SNOW PLOWS

Please avoid on street parking. Snow plows can block your vehicle in as they clear streets and roadways.

4 FUEL UP

Make sure that all work fleet vehicles are fueled to full before you return them back to office. Personal vehicles should have at least a half-tank gas or more during winter weather months.

5 KEEP USEFUL NECESSITIES ON-HAND

Personal cars should be stocked with blankets, bottled water, gloves, flashlight, a protein bar, ice scraper, deicer, USB charger, and hand warmers.

HAVE QUESTIONS, OR NEED ASSISTANCE WITH APPS?
